

Healthcare Science Week 2012

March 9 - 18

- Life sciences**
- Virology
 - Phlebotomy
 - Haemostasis and thrombosis
 - Toxicology
 - Clinical embryology
 - Genetics inclusive of immunogenetics
 - Haematology
 - Anatomical pathology
 - External quality assurance
 - Tissue banking/transplants
 - Blood transfusion science
 - Histopathology
 - Microbiology (bacteriology, mycology)
 - Clinical immunology
 - Cytopathology
 - Clinical biochemistry
- Physical sciences and engineering**
- Ultrasound
 - Medical illustration and clinical photography
 - Medical engineering design and development
 - Radiation safety
 - Radiotherapy physics
 - Nuclear medicine
 - Renal dialysis technology
 - Equipment management and clinical engineering
 - Radiopharmacy/Pharmaceutical science
 - Clinical measurement
 - Diagnostic radiology physics
 - Rehabilitation engineering
 - Maxillofacial prosthetics and reconstruction
 - Magnetic resonance imaging (MRI)
- Physiological sciences**
- Critical care science
 - Vascular science
 - Ophthalmic and vision science
 - Neurophysiology
 - Autonomic neuroscience
 - Audiology and hearing therapy
 - Respiratory and sleep physiology
 - Urology and urological measurement
 - Clinical perturbation
 - Cardiac physiology
 - Gastrointestinal physiology

45 extraordinary careers in science in the NHS

GET INVOLVED!

Help us to promote the extraordinary work of healthcare scientists to schools by registering to become a healthcare science ambassador and linking with your local school during Healthcare Science Week.

Email us at ambassadors@dh.gsi.gov.uk
